Independent Auditor's Report

August 30, 2005

To the Board of Trustees Township of Addison Oakland County, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining information of the Township of Addison, Michigan, as of and for the year ended March 31, 2005, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township of Addison's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Addison as of March 31, 2005, and for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Township has implemented a new financial reporting model, as required by the Provisions of Governmental Accounting Standards Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* as of March 31, 2005.

Board of Trustees Township of Addison, Michigan August 30, 2005

The management's discussion and analysis is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Addison's basic financial statements. The accompanying other supplementary information, as identified in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The other supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Respectfully,

POST, SMYTHE, LUTZ and ZIEL LLP Certified Public Accountants

Post, Smythe Report 22

Management's Discussion and Analysis

As management of the Township of Addison, we offer readers of the Township of Addison's financial statements this narrative overview and analysis of the financial activities of the Township of Addison for the fiscal year ended March 31, 2005.

Financial Highlights

- The assets of the Township of Addison exceeded its liabilities at the close of the most recent fiscal year by \$7,053,946 (net assets). Of this amount, \$2,778,357 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of the close of the current fiscal year, the Township of Addison's governmental funds reported combined ending fund balances of \$2,861,197, a decrease of \$654,581 in comparison with the prior year. Approximately 97 percent of this amount, \$2,778,357 is available for spending at the government's discretion (unreserved fund balance).

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Township of Addison's basic financial statements. The Township of Addison's basic financial statements are comprised of three components: 1) government-wide financial statements, 3) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Township of Addison's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the Township of Addison's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of The Township of Addison is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows.* Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements present functions of the Township that are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the Township of Addison include general government, public safety, planning and zoning, public works, and recreation and culture. The government-wide financial statements can be found on pages 8-9 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township of Addison, like other state and local governments, used fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township of Addison can be divided into either governmental funds or fiduciary fund categories.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Township of Addison maintains 6 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Police Protection Special Revenue Fund, Fire Operating Special Revenue Fund, and the Fire Capital Special Revenue Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into aggregated presentations by fund type. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

A budgetary comparison statement has been provided for the General, Police Protection, Fire Operating, and Fire Capital Funds to demonstrate compliance with the annual appropriated budget.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the Township of Addison's own programs.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. The combining statements referred to earlier in connection with the nonmajor governmental funds are presented immediately following the required supplementary information. Combining statements can be found on pages 31-32 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Township of Addison, assets exceeded liabilities by \$7,053,946 at the close of the most recent fiscal year.

A significant portion of The Township of Addison's net assets (59 percent) reflects its investment in capital assets (e.g., land, buildings, vehicles, and equipment), less any related debt used to acquire those assets that is still outstanding. The Township of Addison uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Township of Addison's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Township of Addison's Net Assets

	2005	2004
Current and other assets	\$3,148,008	\$4,227,476
Capital Assets	4,989,393	4,333,200
Total Assets	8,137,401	8,560,676
Long-term liabilities	690,364	885,525
Other liabilities	393,091	711,698
Total Liabilities	1,083,455	1,597,223
Net Assets:		
Invested in capital assets,		
net of related debt	4,192,749	3,447,675
Restricted	82,840	80,928
Unrestricted	2,778,357	3,434,850
Total Net Assets	\$7,053,946	\$6,963,453

An additional portion of the Township of Addison's net assets (1 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* (\$2,778,357) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Township of Addison is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental activities. The Township's net assets increased by \$90,493 during the current fiscal year.

The increase in net assets, is presented in the table below, which will be comparative in 2006.

		vernmental activities 2005
Program Revenues: Charges for Services Operating Grants & Contributions Capital Grants & Contributions General Revenues: Property Taxes	\$	290,026 50,749 - 1,908,330
State Shared Revenues Unrestricted Investment Earnings Other Total Revenues		436,369 61,201 8,571 2,755,246
Program Expenses General Government Public Safety Planning and Zoning Public Works Recreation and Cultural Interest on Long-Term Debt Total Expenses	_	892,266 1,652,044 54,681 36,005 15,153 14,604 2,664,753
Change in Net Assets	\$	90,493

Governmental funds. The focus of the Township of Addison's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township of Addison's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Township of Addison's governmental funds reported combined ending fund balances of \$2,861,197, a decrease of \$654,581 in comparison with the prior year. The *unreserved fund balance*, which is the amount available for spending at the government's discretion, represents 97% of the total fund balance. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed to uphold agreements (\$82,840).

The general fund is the chief operating fund of The Township of Addison. At the end of the current fiscal year, unreserved fund balance of the general fund was \$942,591, while total fund balance is \$1,024,392. As a measure of the general funds' liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 84 percent of total general fund expenditures, while total fund balance represents 92 percent of that same amount.

The fund balance of the Township of Addison's general fund decreased by \$6,542 during the current fiscal year. The key factors in this decrease were an increase in professional fees of \$97,568 and a decrease in road expense over the prior year.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were a total of \$65,000 increase to expenditures, which is a 6.0% change in overall appropriations.

Capital Asset and Debt Administration

Capital assets. The Township of Addison's investment in capital assets for its governmental activities as of March 31, 2005, amounts to \$4,989,393 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, vehicles and equipment, and parks. The total increase in the Township of Addison's investment in capital assets for the current fiscal year was 15 percent. During fiscal year 2004-2005, the Township completed construction of a new fire station, including new furnishings and equipment totaling \$779,350 of capital expenditures in the current year.

Long-term debt. At the end of the current fiscal year, the Township of Addison had total debt outstanding of \$796,644 including \$763,944 of installment loans payable. All of The Township of Addison's debt represents general obligation debt backed by the full faith and credit of The Township of Addison, subject to constitutional limit.

Additional information on the Township of Addison's long-term debt can be found in note IV. D. on pages 23-24 of this report.

Economic Factors and Next Year's Budgets and Rates

The fiscal year 2005-2006 budget adopted by the Township projects that approximately \$75,000 of the General Fund fund balance will be expended during the year (expenditures exceeding revenues). Also, the Fire Operating Fund projects a \$38,210 decrease in fund balance.

Increases in the Township's taxable value have provided additional revenue while the total millage rate has been reduced due to Headlee roll backs, providing a minimal increase in tax revenues to the Township. Also, the Township has not filled some of the positions that are currently open, but rather has had existing staff absorb those duties to keep costs down.

Requests for Information

This financial report is designed to provide a general overview of the Township of Addison's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Township Supervisor, 1440 Rochester Road, Leonard, MI 48367.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended March 31, 2005

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds \$ (654,581)Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period. 656,193 The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. 88,881

Change in net assets in governmental activities \$ 90,493

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Township is governed by an elected seven member Board of Trustees. Services are provided to approximately 6,107 residents in the areas of police and fire protection, parks, and planning and zoning.

As required by generally accepted accounting principles, these financial statements present the Township of Addison. The Township has no component units which are required to be included in these financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic* resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation - Continued

Governmental fund financial statements are reported using the *current financial* resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the Township.

Governmental Funds

The Township reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Police Protection Fund is a special revenue fund used to account for property tax levy and contract payments to the Oakland County Sheriff's Department.

The Fire Operating Special Revenue Fund is used to account for voted property tax levies to operate the Township's fire department.

The Fire Capital Special Revenue Fund is used to account for voted property tax levies to purchase equipment, vehicles, and buildings for the fire department.

In addition, the Township reports on the following fund types:

The special revenue funds account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or major capital projects).

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation – Continued

Permanent funds are used to report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs. This includes the cemetery expendable trust fund for the municipal cemetery.

Fiduciary Funds

Fiduciary Funds account for assets held by the government in a trustee capacity or as an agent on behalf of others. Fiduciary funds include the following fund types:

Agency Funds are used to account for assets that the government holds for others in an agency capacity. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as needed.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D. Assets, Liabilities and Net Assets or Equity

1. Deposits and Investments

The Township's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition. State statutes authorize the Township to invest in obligations of the U.S. Treasury, commercial paper of certain investment grades, and deposits of Michigan commercial banks. Investments for the Township are recorded at fair value.

Restricted Assets

The restricted asset amount of \$81,801 recorded in the General Fund represents funds received from Great Lakes Gravel for future cleanup of the Great Lakes Gravel site.

3. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. non-current portion of interfund loans).

All trade and property tax receivables are shown net of allowance for uncollectible accounts, which are recorded at \$-0- at March 31, 2005.

4. Capital Assets

Capital assets, which include property, plant, equipment are reported in the government-wide financial statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of capitalized value of the assets constructed. Property, plant and equipment is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	30
Vehicles and Equipment	5-15

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D. Assets, Liabilities and Net Assets or Equity - Continued

5. Compensated Absences

In accordance with Township's internal policy, individual employees have vested rights upon termination of employment to receive payment for unused vacation and sick leave under formulas and conditions specified. All sick and vacation pay is accrued when incurred in the government-wide financial statements. This liability is composed of employees who retire and any unused vacation paid upon termination of employment. The total liability at March 31, 2005 is \$10,460.

6. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

Long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the Statement of Net Assets.

7. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet And the Statement of Net Assets

The governmental fund balance sheet includes a reconciliation between *fund* balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$796,644 difference are as follows:

Installment Note Payable	\$763,944
Property Tax Tribunal Cases	32,700
	<u>\$796,644</u>

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances-total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$656,193 difference are as follows:

Capital Outlay	\$ 779,350
Depreciation Expense	<u>(123,157</u>)
	\$ 656,193

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds." The details of this \$88,881 difference are as follows:

Principal Repayments:	
Installment Note Payable	\$ 86,056
Reduction in Compensated	
Absences Liability	2,825
-	\$ 88,881

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The Township is legally subject to the budgetary control requirements of the State of Michigan P.A. 621 of 1978 (Uniform Budgeting Act). The following is a summary of the requirements of this act:

- a. Budgets must be adopted for the General and Special Revenue Funds.
- b. Budgets must be balanced.
- c. Budgets must be amended as necessary.
- d. Public hearings must be held prior to adoption.
- e. Expenditures cannot exceed budget appropriations.
- f. Expenditures must be authorized by a budget appropriation prior to being incurred.

The Township follows these procedures in establishing the budgetary data reflected in these financial statements:

- Prior to March 31, the Township Supervisor submits to the Township Board a
 proposed operating budget for the fiscal year commencing the following
 April 1. The operating budget includes proposed expenditures and the
 means of financing them, for the General and Special Revenue Funds. These
 are prepared on the activity level basis for the General Fund and the fund
 level for the Special Revenue Funds using the modified accrued method of
 accounting.
- 2. Public hearings are conducted at the Township office to obtain taxpayer comments.
- 3. Prior to March 31, the budget is legally enacted on a departmental (activity) basis through passage of a resolution.
- 4. The Township Board must approve any revisions that alter the total expenditures of any department.
- 5. Budget appropriations lapse at year end.
- 6. The Township Board may authorize supplemental appropriations (budget amendments) during the year. In 2005 several budget amendments were made and are reflected in the financial statements.
- B. Compliance with P.A. 621 of 1978
 - 1. Deficit Fund Balance

None of the funds have a deficit fund balance as of March 31, 2005.

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - Continued

B. Compliance with P.A. 621 of 1978 - Continued

2. Excess of Expenditures Over Appropriations in Budgetary Funds

The budget for the General Fund is adopted at the activity level and the budgets for the Special Revenue Funds are adopted at the fund level. Expenditures in excess of budget appropriations are as follows:

Evene

			EXCESS
			Expenditures
	Final		Over
	<u>Budget</u>	<u>Actual</u>	Appropriations
General Fund:			
General Administration	\$ 212,312	\$ 222,720	\$ 10,408
Clerk	111,125	111,489	364
Treasurer	93,445	95,165	1,720
Planning and Zoning	49,750	50,375	625

C. Public Act 245 of 1999 Compliance

In accordance with the State Construction Code Act, Public Act 245 of 1999, the Township must account for cumulative revenues over or under expenditures generated by the Township's building department from January 1, 2000 and forward.

The cumulative amounts as of March 31, 2005 are as follows:

Cumulative Balance at March 31, 2004	\$ (10,859)
Fees Collected in Fiscal Year 2005	118,595
Expenditures in Fiscal Year 2005	(116,378)
Cumulative Balance at March 31, 2005	\$ (8,642)

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Under State law, the Township is permitted to invest in deposits with Michigan commercial banks, savings and loans and credit unions, obligations of the U.S. Treasury, and corporate bonds and commercial paper with certain investment grades.

Deposits (cash and certificates of deposit) are carried at cost which approximates market value. The carrying amount of deposits are separately displayed on the balance sheets as "Cash and Cash Equivalents".

The carrying amount of the Township's deposits with financial institutions at March 31, 2005 was \$4,061,021 and the bank balance was \$4,123,579 categorized as follows:

IV. DETAILED NOTES ON ALL FUNDS - Continued

A. Deposits and Investments - Continued

•	Bank
	<u>Balance</u>
Insured by F.D.I.C.	\$ 200,000
Uninsured and Uncollateralized	3,923,579
Total	<u>\$4,123,579</u>

A reconciliation of cash presented on the financial statements follows:

Cash and Cash Equivalents per:

Statement of Net Assets	\$1,009,675
Statement of Fiduciary Net Assets	3,051,346
Total	\$4,061,021

B. Capital Assets

Capital asset activity for the year ended March 31, 2005 was as follows:

		Beginning			Ending
Governmental Activities:		Balance	Additions	Deletions	Balance
		_	· · · ·		
Capital Assets, not depreciat	ed:				
Land	\$	3,125,000 \$	- \$	- \$	3,125,000

Governmental Activities	-				
Capital Assets, net	\$	4,333,200 \$	1,407,830 \$	(751,637) \$	4,989,393

Depreciation expense was charged on the Statement of Activities as follows:

General Government	\$ 1,667
Public Safety	121,490
	\$ 123,157

IV. DETAILED NOTES ON ALL FUNDS - Continued

- C. Interfund Receivables, Payables and Transfers
 - 1. Interfund Receivables and Payables

The composition of interfund balances as of March 31, 2005, is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Police Protection	\$ 49,791
	Fire Operating	75,480
	Fire Capital	40,501
		<u>\$165,772</u>
Interfund Transfers		
<u>Transfer In</u>	<u>Transfer Out</u>	<u>Amount</u>
General Fund	Park Acquisition	\$ 26,902
Fire Capital	Fire Operating	30,000

D. Long-Term Debt

2.

The following is a summary of long-term debt transactions of the Township for the year ended March 31, 2005:

	Balance 4/1/04	<u>Additions</u>	<u>Pa</u>	<u>ayments</u>	_	alance <u>3/31/05</u>	_	Due In 1 year
Installment Note Payable Property Tax Tribunal Cases				•		763,944 32,700		· ·
Total Debt	\$ 882,700	\$ -	\$	86,056	\$	796,644	\$	106,280

<u>Installment Note Payable</u>

On November 3, 2003, the Township financed a portion of the new fire station with an installment note through Oxford Bank with an interest rate of 3.495%, a maturity date of May 1, 2013, and annual payments of \$100,660 including interest.

The following is a summary of general obligation debt outstanding (excluding compensated absences and tax tribunals) of the Township as of March 31, 2005:

	Number of	Interest	Maturing	Principal
Governmental Activities:	<u>Issues</u>	Rate	<u>Through</u>	Outstanding
Installment Note	1	3.495%	2014	\$ 763,944

IV. DETAILED NOTES ON ALL FUNDS - Continued

D. Long Term Debt - Continued

The annual debt service requirements to maturity for general obligation debt outstanding as of March 31, 2005 are as follows:

	<u>Pr</u>	<u>incipal</u>	<u>Interest</u>		
Year Ended					
2006	\$	73,580	\$ 27,080)	
2007		76,188	24,472	2	
2008		78,887	21,773	3	
2009		81,631	19,029)	
2010		84,575	16,084	1	
2011-2014		369,083	33,308	3	
	\$	763,944	<u>\$141,746</u>	<u>,</u>	

E. Reserved Fund Balance

A detailed description of fund balance reservations and designations (for all governmental fund types) at March 31, 2005, is presented below:

		Special	
	General	Revenue	<u>Permanent</u>
<u>Fund Balance</u>			
Reserved for Cemetery	\$ -	\$ -	\$ 1,039
Reserved for Site Cleanup	81,801		
Unreserved:			
Designated for

Expenditures	75,000	121,370	-
Undesignated	<u>867,591</u>	<u>1,714,396</u>	_
Total Fund Balance	\$1,024,392	<u>\$1,835,766</u>	\$ 1,039

F. Property Taxes

Property tax assessments are assessed as of each December 31. The Township tax levy is billed on December 1 of the following year, and payable through February. Taxes are considered delinquent on March 1, at which time the applicable property is subject to lien and penalty and interest is assessed. Township property tax revenues are accounted for in the General Fund, Police Protection Fund, Fire Operating Fund, and Fire Capital Fund and are recognized in the current year as revenue in accordance with guidelines of the State of Michigan.

V. OTHER INFORMATION

A. Risk Management

The Township of Addison purchases commercial insurance for its workers compensation coverage and is a member of the Michigan Municipal Risk Management Authority risk pool for its property and general liability insurance coverage. The Township pays annual premiums to the pool. The pool is self-sustaining through member premiums.

In the event that a single loss should exceed the amount of protection afforded by the pool loss reserve fund, or in the event that a series of losses should deplete or exhaust the loss reserve fund, the payment of valid losses shall be the obligation of the individual member or members of the respective pool against whom the claim was made.

No such event has occurred with the Township of Addison and the pools to which it belongs in any of the past three fiscal years.

V. OTHER INFORMATION - Continued

B. Joint Venture

The Township is a member of the North Oakland Transportation Authority (NOTA), which provides transportation services to the residents of Oxford, Orion, and Addison Townships. The participating communities provide annual funding for its operations. During the current year, the Township contributed \$27,600 for its operations. Financial statements for NOTA are available upon request from the NOTA administrative offices at 1370 South Lapeer Road, Oxford, MI 48371.

C. Personal Property Tax Multipliers

In November 1999, the State Tax Commission approved revised personal property tax tables for utilities. The revised tables affected taxes collected from 1997 to present due to local units of government continuing to use the personal property tax tables in effect prior to 1999. The issue was the subject of a lawsuit brought by several units of government against the State Tax Commission, challenging the constitutionality of the new utility personal property tax tables. In April 2002, the revised tables were upheld by the court.

The local units of government appealed this decision and during 2003, the Michigan Tax Tribunal entered its judgment to uphold the new tables. The amounts paid to the Township in excess of the approved amounts using the new tables would potentially need to be refunded to the utility companies. This could result in refunds of approximately \$5,300 from the General Fund and \$27,400 from the Special Revenue Funds. Appeals are still being undertaken by taxing authorities and the matter is not expected to be settled until some time in the next fiscal year. Therefore, the potential refund amount totaling \$32,700 has been recorded in the Statement of Net Assets.

D. Prior Period Adjustments

The following funds had restatement of previously reported results to correct accounting errors:

accommig and	General <u>Fund</u>	Police <u>Fund</u>
Previously Reported Fund Equity, March 31, 2004	\$1,015,806	\$933,854
Correction of Accounting Error	<u> 15,128</u>	<u>(56,757</u>)
Restated Fund Equity March 31, 2004	<u>\$1,030,934</u>	<u>\$877,097</u>

Board of Trustees Township of Addison Oakland County, Michigan

In planning and performing our audit of the Township of Addison for the year ended March 31, 2005, we have considered the Township's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit we became aware of several matters that are opportunities for strengthening internal controls and operating efficiencies. The memorandum that accompanies this letter summarizes our comments and suggestions in these areas. This letter does not affect our report dated August 30, 2005, on the financial statements of the Township of Addison.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Township personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional studies or assist in their implementation.

Respectfully,

POST, SMYTHE, LUTZ and ZIEL LLP Certified Public Accountants

Post, Smythe Report Zil

Board of Trustees Township of Addison August 30, 2005 Page 2

Accounting Issues

The cash receipts and disbursements of the Township appear to be posted on a timely basis and banks are reconciled monthly. However, during the audit we noted the following areas for improvement:

- The interfund balances (amounts due to and due from other funds) should be reconciled on a monthly basis.
- Accruals from the prior year should be reversed and current accruals should be recorded as appropriate.
- Accounts administered by the Treasurer in a fiduciary nature such as for the Lake Boards and Private Roads should be recorded separately in agency type funds and not in the general operating funds of the Township.

The above items were discussed with the Township Officials who have already implemented our recommendations and we anticipate the books at the fiscal year ended March 31, 2006 will reflect these improvements as well.
